[AM](#)

Description

The festival booth, shared by a photographer and a tole painter, is a vibrant and eclectic display of artistic talent. One side of the booth features the photographer's stunning prints, showcasing a variety of subjects from detailed macro shots of flowers to sweeping landscapes. On the other side, the tole painter's work adds a charming, handcrafted touch. Hand-painted wooden and metal items, including decorative trays, boxes, and ornaments, display intricate designs and folk art motifs.

[AM](#)

**Description**

Every Season Blooms is a locally owned small business starting its 4th season. We grow perennials (comes back every year) and flowering shrubs that are zone appropriate for Western PA. All plants are planted and grown in Butler County. We are a two person operation that oversees every step of the growing process, from plug/bare root to shaping to preventing disease or bug infestation to the final sellable product. We pride our self on an exceptional product and in our customer service. We look forward to interactions with our customers, from a quick hello, to an indepth discussion of the best plants and plant placement in your very own garden. We share our knowledge common plant problems and care. Come share the excitement of your garden with us!

I started creating Stainless Steel Jewelry when I developed an allergy to metals. I fell in love with it. I create Stainless Steel Jewelry for both men and women. Statement necklaces, bracelets, earrings, pendants, rings. I keep my prices \$28 and below so everyone can wear my pieces...I love making my customers happy! The Stainless Jewelry is allergy free, it doesn't tarnish or turn you green and as my customers say...You can't kill it! I was honored this past August to receive

the Festival Favorite Award! It is made by cutting forming twisting filing hammering and soldering...and a lot of sore fingers...and of course love!!

**The Tiny Stamp Mill****Category**

[AM](#)

**Description**

The artist carves stamps by hand using intricate carving tools. These stamps, after the application of ink and/or paint, are then used to decorate textile and canvas/fabric products (i.e. journals, greeting cards, tea towels, aprons, and bags/pouches of various sizes and shapes). I demonstrate this art by using the carvings to decorate various products while selling. As such, unique products/details/designs/color combinations can be made to order. I also bring linoleum blocks and carving tools with me to demonstrate the carving process to the public.

**Space**

14

**Thorned Rose Gifts****Category**

[AM](#)

**Description**

I create wooden personal and household accessories, including coasters (my flagship item), wall art, wooden jewelry, key chain fobs and phone stands. Using self-developed methods and my own original designs I begin with raw materials, staining and finishing panels as appropriate to each project. I engrave and cut those panels using a laser, and then I assemble and finish each item by hand as appropriate. In the case of my coasters, for example, that involves making them waterproof. I hand-color some of my items using my own homemade inks, and also make some of my own stains. Everything I design and build combines beauty, utility and durability -- often with a touch of whimsy -- so that my customers may not only admire their purchases, but also enjoy making daily use of them for many years to come.

### **Wooden Whiskers**

**Category**  
[AM](#)

#### **Description**

We make hand painted wooden items. The selection ranges from wooden ornaments, car charms, suncatchers, small tiered tray items and night lights. One of our best selling ornaments has been a four layered wooden map ornament. We started with a design of Pittsburgh and since have expanded to local areas. Currently we are working on a map of Kittanning to be able to showcase at the event. Ornaments are hand painted and many can double as a car charm. We also offer car charms with wooden beads that you can add your favorite essential oil to make it into an air freshener. Our wooden suncatchers have a transparent colored flex material layered between the two decorative wooden pieces and embellished with charms. The nightlights that we make are decorative hand painted wood that is included with a dusk to dawn LED nightlight. A new product line that we are launching later this month is an interchangeable jar lid. The glass jar can be used for cookies, candy, pet treats, coffee bar or misc household items. The wooden lids fit snugly over the metal lid of the jar and the middle piece can be interchanged for the seasons or to just have a variety. Once a jar with the lid is purchased, additional lid inserts can be purchased separately.
